

Merge or consolidate class rosters

Last Modified on 10/20/2019 2:10 am EDT

There are times where an instructor may wish to merge multiple courses into one (e.g., multiple sections of the same course or having a section with little to no students). The Electronic Learning Department has the ability to create a shell and combine the courses of your choice into that shell (if you have multiple sections) or [metalink](#) one section to another section.

You may click [here](#) to view for the request document and the instructions.
