

Including resource in grade book

Last Modified on 11/13/2018 2:09 pm EST

1. Enter the Homepage of your course
2. Turn Editing on
3. Select “Add Activity or Resource”
4. Select the Activity or Resource of your choice
5. Make modifications to the grade area in the settings (if applicable)
6. Save

NOTE: If the Activity or Resource has a grade option, the point value will appear in your gradebook. In the event that there is no grade option available, a manual grade entry will need to be entered into the gradebook.
