

Student Accommodations

Last Modified on 11/09/2021 4:23 pm EST

McNeese State University is committed to ensuring equal access to information for all faculty and students. The Office of Disability Services and eLearning have gathered the articles and resources below to assist with student accommodation requests and compliance.

Accessibility Recommendations

Faculty members use multiple devices to deliver and capture instructional content. Some faculty members ask students in their class to assist with recording lectures and capturing lecture content to later provide in Moodle. Please let the eLearning department know if you need help with additional resources.

Voice Type, Speech-to-Text

Use the tools below to capture as text live on campus or online lectures, take notes using voice typing, or use these tips to transcribe course videos for closed captioning. Please note, that some addition edits may be needed once these tools transcribe speech it hears in to text. Using a microphone will improve service. However, as you learn how to speak (tone, speed, volume) using these tools and as the tools learn to hear your voice, this will improve and minimize the number of edits you find.

Windows PC or Office 365

[Speech to Text for Windows and Microsoft 365](#)

[Dictate in Microsoft 365](#)

[Use Dictation to Talk Instead of Type on PC](#)

Google Docs (Works well to capture as text live lectures, or play a video with feature on to transcribe/provide closed captions.)

[Type with your voice](#) Go to Google Drive > New > Docs > Tools > Voice Typing

Apple - Mac, iPad, iPod Touch, iPhone

[Voice Control on Mac](#)

Voice Control on iPad, iPod Touch, iPhone (See dictation section)

Hear Text, Make Any Document Audible, Text-to-Speech

Microsoft Windows

Mac - Once activated on. Mac > highlight text in document > right click > select speech > start speaking.

Mac Voiceover User Guide

Chromebook

Google Play Android
