

# How to Add RedShelf Tool to Moodle

Last Modified on 01/20/2021 5:28 pm EST

You can view the original context of this article by [clicking here](#).

Here are step-by-step instructions to add the RedShelf LTI tool to a course shell in Moodle. You may play the video embedded below this list for a demonstration.

1. Go to your course shell
2. Click the gear in the upper-right corner, and click the down arrow
3. Turn editing on
4. Click "Add an activity or resource"
5. Click External tool
6. Click Add
7. Add an Activity Name
8. Select "RedShelf Link" under "Preconfigured tool"
9. Select Save and Return to Course
10. Click the gear in the upper-right corner, and click the down arrow
11. Turn editing off
